Social Policy Report

The *Social Policy Report (SPR)* is published three to four times per year. Its purpose is twofold: (1) To provide policymakers with comprehensive, non-partisan reviews of child development research findings to inform policy decision-making (2) To inform the SRCD members about (a) policy issues related to child development and (b) child development research related to such issues.

The *Social Policy Report* provides a forum for scholarly reviews and discussions of policy considerations stemming from developmental research findings. Topics come from a variety of disciplines and cover a wide range of issues such as health care, parenting, and education. SRCD recognizes that many policy issues are controversial and that authors may have a “point of view,” but the *SPR* is not intended to be a vehicle for authors to advocate particular policy positions. Presentations should be balanced, accurate, and inclusive. The publication will includes a disclaimer that the views expressed do not necessarily reflect those of SRCD or the editors.

Statement on Anti-racism, Equity, and Inclusion in SRCD Publications

As our highly regarded journals are perhaps the most public-facing element and explicitly gatekeeping mechanism of the SRCD enterprise, we must critically examine the extent to which our journals, Editors and
Editorial Boards, reviewers and review standards, and Publications Committee activities implement practices and policies grounded in inclusive and anti-racist principles. Read the full statement.

Social Policy Report Editorial Board

Lead Editor, Lisa Berlin, and her Editorial Board are charged with inviting experts in certain fields as well as accepting topic ideas for future Social Policy Reports.
