Social Policy Report

The Social Policy Report (SPR) is a quarterly publication of the Society for Research in Child Development (SRCD). Its purpose is twofold: (1) to provide policymakers with comprehensive, non-partisan reviews of research findings on topics of current national interest, and (2) to inform the SRCD membership about current policy issues relating to children and about the state of relevant research.

Social Policy Report is a quarterly publication of the Society for Research in Child Development that provides a forum for scholarly reviews and discussions of developmental research and its implications for policies affecting children. Topics are drawn from a variety of disciplines and cover a wide range of issues that affect child and family development through the lens of social policy, such as health care, parenting practices, and education policies. SRCD recognizes that few policy issues are noncontroversial and that authors may well have a “point of view,” but the SPR is not intended to be a vehicle for authors to advocate particular positions on policies. Presentations should be balanced, accurate, and inclusive. The publication nonetheless includes the disclaimer that the views expressed do not necessarily reflect those of SRCD or the editors.

- Statement on Antiracism, Equity, and Inclusion in SRCD Publications
Statement on Anti-racism, Equity, and Inclusion in SRCD Publications

As our highly regarded journals are perhaps the most public-facing element and explicitly gatekeeping mechanism of the SRCD enterprise, we must critically examine the extent to which our journals, Editors and Editorial Boards, reviewers and review standards, and Publications Committee activities implement practices and policies grounded in inclusive and anti-racist principles.
