

Publications Committee

Mission Statement

The Publication Committee is tasked to review the health of existing publications, including their attention to diversity and inclusion of marginalized groups; evaluate proposals for major modifications in publications and for establishing new publications; and make appropriate recommendations to Governing Council including those concerning new editors as terms of editors expire and new strategies for maintaining the health and status of SRCD's publication enterprise while advancing equity in the field. Given the increasing number of complex publication-related issues that come to the SRCD Publications Committee, individuals with editorial experience and/or extensive publication records are welcome.
